Abstraction (glossary)

From SEBoK
abstraction

(1) A view of an object that focuses on the information relevant to a particular purpose and ignores the remainder of the information. (ISO/IEC 2010)

(2) The process of formulating a view. (ISO/IEC 2010)

(3) "A [simplified] replica of the concrete. For example, the abstract architectural principle of redundancy can be realized in the concrete manifestation of a concrete communications system." (Lonergan, 1992)
