**Business Process Management**

From SEBoK

Business Process Management

**Usage**

This source is considered a primary reference for the Value of Service Systems Engineering article.

**Annotation**

This article covers the basic principles of business process management and introduces a business transaction language to realize a novel business transaction model for end-to-end business services. This book helps provide an environment where robust and successful service-based applications (SBAs) can be realized by combining application integration strategies with transaction-based business process management technologies.
