Decision Management (glossary)

From SEBoK
decision management

Analysis of possible decisions using a formal evaluation process that assesses identified alternatives against established criteria. (Created for SEBoK)

Source

This definition was developed for SEBoK v 1.0.

Discussion

Stakeholders should have input to the guidelines used to determine which issues should be included in the analysis.

SEBoK v. 2.1, released 31 October 2019
