Emerging Topics

From SEBoK
Emerging Topics

Lead Author: Robert Cloutier

The emerging topics knowledge area is intended to introduce and inform the reader on significant and rapidly emerging methods, processes and tools within the systems engineering community. It is not intended to be all-inclusive. Instead, those topics that have a high probability of significantly impacting the practice of systems engineering, as determined by the SEBoK editorial board, will be covered. If the reader has recommendations of emerging topics that should be covered, please send an email to SEBoK@incose.org, or leave a comment in the comment feature at the bottom of this page.

Contents

- 1 Topics in Part 8
- 2 References
  - 2.1 Works Cited
  - 2.2 Additional References

Topics in Part 8

- Introduction to SE Transformation
- Transitioning Systems Engineering to a Model-based Discipline
- Model-Based Systems Engineering Adoption Trends 2009-2018
- Digital Engineering
- Set-Based Design
