System Context (glossary)

From SEBoK
system context

(1) Describes the system relationships and environment, resolved around a selected system-of-interest. (Flood and Carson 1993)

(2) Diagram defining the highest level view of a system in its environment. (Flood and Carson 1993)

Source

Discussion

Definition (1) describes the reason for considering context.

Definitions (2) relates context to a context diagram. This is most common way in which context is express in systems engineering. A number of context diagram notations are available.
