

# An Integrated Approach to Developing Systems Professionals

From SEBoK

An Integrated Approach to Developing Systems Professionals

Davidz, H.L., and M.W. Maier. 2007. "An Integrated Approach to Developing Systems Professionals." Proceedings of the 17th Annual International Council on Systems Engineering (INCOSE) International Symposium, June 24-28, 2007, San Diego, CA, USA.

## Usage

This source is considered a primary reference for the Developing Individuals article.

## Annotation

This paper provides a foundational process for developing systems engineering competencies in individuals that is generalizable and applicable to all organizations seeking to foster and manage systems engineering capability in their organization.
