

# Integration (glossary)

From SEBoK  
integration

*A process that combines system elements to form complete or partial system configurations in order to create a product specified in the system requirements.*  
(ISO/IEEE 2008)

## Source

ISO/IEEE. 2008. *Systems and Software Engineering - Software Life Cycle Processes*. Geneva, Switzerland: International Organization for Standards (ISO)/Institute of Electrical & Electronics Engineers (IEEE) Computer Society, ISO/IEEE 12207:2008(E).

## Discussion

For a full discussion of the role and importance of integration in systems engineering see the System Integration article.
